PEGBOARDLAB · STUDIO LAYOUT PLAN v2

Three boards on their real hole lattices · A and C at 1:7.5, B at 1:10 · A3 · 2026-11-05 · zones in blue · two-part holders (spine + holder, Ø3.5 × 15 csk drywall screws) · code = PEGBOARDLAB family · ? = to confirm

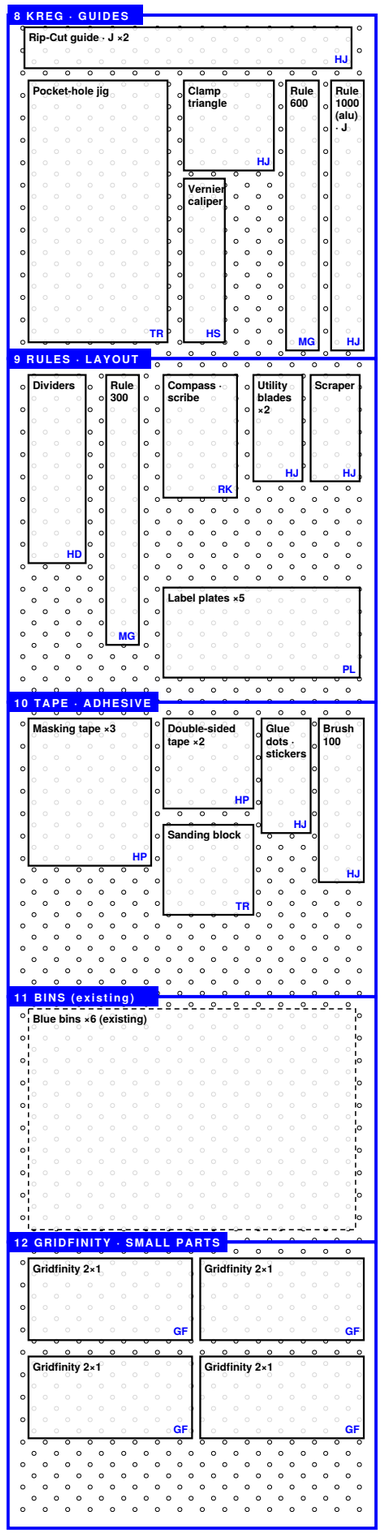

A · IMPERIAL · chipboard 19 · 1:7.5

31 × 50 · Ø7.6 · 23.876 square · studs Ø7.8 × 18 · 30 × 50 holes

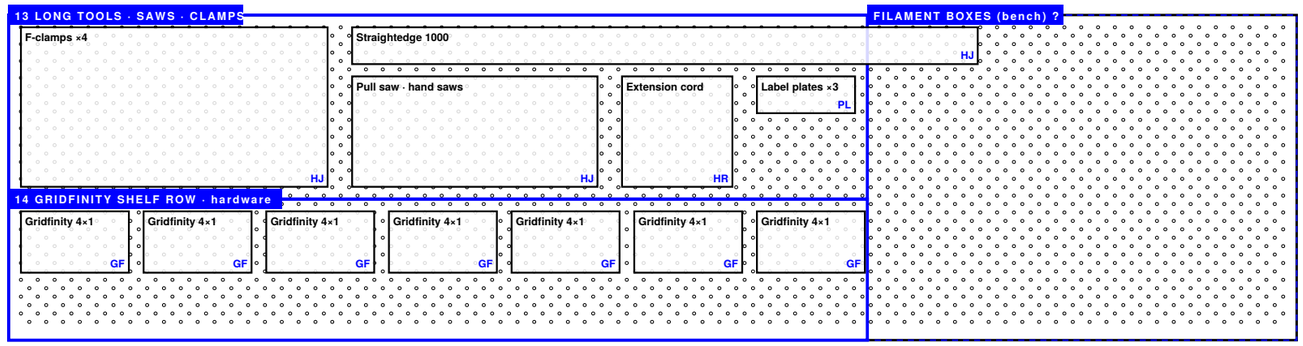

C · METRIC · portrait ? · 1:7.5

450 × 1850 ? · Ø4.9 · 27.44 / 13.72 · confirm · 16 × 133 holes

B · METRIC · landscape 4 mm · 1:10

2100 × 530 · Ø4.9 · 27.44 / 13.72 lattice · right 700 kept for the filament boxes ? · 76 × 36 holes

ACCESSORY CODES

HS	Holster · saddle	holster · hs_type=saddle
HJ	Hook · J	hook · hk_type=j
HL	Hook · loop	hook · hk_type=loop
RK	Rack · holes / slots	rack · rk_type=…
MG	Magnet strip	magstrip · mg_mode=embed
GF	Gridfinity shelf	gridfinity · gf_nx × gf_ny
HR	Holster · ring	holster · hs_type=ring
HD	Hook · double prong	hook · hk_type=double
HP	Hook · peg (rolls)	hook · hk_type=peg
TR	Tray / bin	tray · tr_type=…
CL	Clip · cables	clip · cl_type=snap
PL	Label plate	plate · pl_w × pl_h

PLACEMENT RULES

Brand clusters: Bosch 12V left column of A (holsters, one grab, no tilt) · Irwin centre · Wera right · Kreg on C.

Reach: measuring nearest the bench (A rows 36–45), then pliers · cutters · drivers · knives above (rows 24–36); clamps and the bag up top.

Stability: two-part holders - a spine with ≥2 sized studs (Ø7.8 on A) or a J-hook + stop (C / B), the holder screwed to it with

Ø3.5 × 15 countersunk drywall screws; on A the screws run on into the studs and expand them in their holes. No steel hooks remain.

Quick draw: holsters and J-hooks lift straight up; racks open to the front; nothing is stacked behind anything else.

Put-back: every holder carries its label plate (item name, brand) so an empty slot says what is missing.

Board B: long tools and a Gridfinity shelf row for small parts; right 700 mm stays bench space while the filament lives there.

To measure before printing: board C size and lattice, bench height under A (reach), fan / power-strip keep-out on A.

PRINT COUNT (holders)

20 Hook · J
11 Gridfinity shelf
9 Rack · holes / slots
8 Tray / bin
7 Holster · saddle
6 Hook · double prong
3 Magnet strip
3 Label plate
2 Hook · peg (rolls)
1 Hook · loop
1 Clip · cables
1 existing / keep
1 Holster · ring
